Henri Foucault

Alix Agret

This work is so titled a body responsible for movement, full of relaxation and come with modeled values evoke transparency. In fact, this body laid by the momentum has opalescent glass, translucent, diaphanous. Inside or outside, illuminated or illuminated: a new way opens from the observation of the body through dance desired to understand, out of the only volumetric reality, what distinguishes the sculpted and photographed. The illuminated sculpture and illuminated photo? Yes maybe ... But Foucault especially invited to follow his model, to dance with her.
