SÉQUENCES

Elsa & Johanna

Anaïs Viand

In 2023, Elsa and Johanna discovered the Perche region during their Capsule residency, in collaboration with the Ministry of Culture and DRAC Normandie. The locals had the opportunity to appreciate their major works: *The Timeless Story of Moormerland* at the Moulin Blanchard last summer, and *A Couple of Them* at the Champ des Impossibles in May. This summer, they are presenting their new series, *Sequences*, at the grange cathédrale of the Moulin Blanchard, featuring a dozen photographic scenarios comprising around fifty images.

Elsa and Johanna explored the beauty of the Perche landscape in the spring of 2023 before returning in the summer to carry out their photo shoots. Their narrative and meticulous approach, far from documentary style, carefully integrates sets, props, and compositions in which they stage themselves. For the first time, their work incorporates the landscape as a central element, transforming nature into an actor in their compositions.

They inventoried and utilized the diversity of Perche's landscapes—agricultural, forested, and rolling hills—and the summer lights to create photographic sequences that are both pop and imbued with mystery. Their boundless imagination transformed these landscapes into a captivating and evocative fresco, blending pop aesthetics with a noir ambiance.
