

# Littoral / Delta de la Leyre

BASSIN D'ARCACHON

Sabine Delcour

André Rouillé

The series of Leyre Delta presented in this book is the result of an order of the Conservatoire du Littoral \* on the diked areas of the Bassin d'Arcachon (Gironde) where Leyre discovers the approach from the sea and spreads out into a multitude of arms. Space that is both artificial and natural, the Delta offers a variety landscape reshaped constantly by the tides.

"This transfer of the blur to read is consolidated by the lines formed by the leakage paths, channels, canals, by as many micro-elements that punctuate the photographs reflect the diversity of a territory and can walk in the image to an off-field, to another place. Thus, Sabine Delcour approach as much territory as a given geographical area as the possibility of imagination, the expression of perceptions and intimate drama." A.R.
