

Afriphoto III

Toyosi Idunsi, Francis Nii Obodai Provençal, Paul Kabré, Germain Kiemtore

This collection stems from a desire to promote, provide a showcase for photographers, African or from Africa, which for this volume come from different parts of the continent. Will also provide a space for expression to the creativity of African photography, young authors made or for which we had a real "hot heart".

Released	15/05/2006
